

Y'all, I'm throwing her out... because she's that good!

And she's got about one more coffee left before I recycle her, so let's go make one

Yes, that's right, this bottle is recyclable

We love that!

I'm going to be making a Starbucks café-inspired Brown Sugar Oat Milk Shaken Espresso before we say goodbye to her

But best believe we're going out to get another right after this
